

DRAGRACING 101
SPONSORED BY:

All Harley Drag Racing Association & The
SPORTSMAN RACERS ASSOCIATION

New Racers: If you ever wanted to see what your Harley could do on the racetrack, this is your opportunity. Learn all the basics of drag racing, get answers to your questions and get a chance to make practice runs before the competition starts, in a safe and structured environment.

Already racing with AHDRA? You are welcome as well. Join the class to fine tune your skills, receive feedback from experienced racers and learn new techniques that can give you an edge on the competition. A strong emphasis on safety and mental focus as well as bike preparation will be discussed

Maura Hall of the Zipper's Race Team will once again be teaching the class with assistance from team mate, Mike Fitzgerald and several other SRA members.

New racer's will get to compete in an AHDRA National Event in the SYN3 ET class, you will get number plates for your bike, and you will find out how fast your bike really is. The ET class is open to all Harley models from the Buell Blast up to a full custom or an all out Harley Drag Bike. The ET staggered start equalizes the performance of the bikes and a Buell Blast can beat an all out drag bike (it has happened). You are eligible for this program if you have never raced at an AHDRA sponsored event.

What it costs: \$65 w/ Drag Racing 101 entry form for Non AHDRA Members, \$30.00 for current AHDRA or SRA members.

Non & Current member price is for class only, does not include the gate fees.

Current members must pay regular class entry fees.

What you get:

Entry & tech for the SYN3 ET race (value \$60)

Special one race membership in AHDRA (value \$25) Upgrade to full year for \$50-\$70

AHDRA number plates for your bike (value \$10)

AHDRA drag racing rulebook (value \$7)
